MONTGOMERY COUNTY COVID-19 UPDATE

MONTGOMERY COUNTY – Montgomery County Public Health District, in conjunction with Montgomery County Office of Homeland Security and Emergency Management, can confirm the number of ACTIVE cases of COVID-19 has decreased to 492 today. That number includes 41 hospitalizations. 368 people have fully recovered. The number of total positive cases has increased 20 since yesterday to 881.

As we mentioned yesterday, in an effort to bring as much information to the public as we can, we are working with our IT consultants to bring back the case-by-case list that many of you preferred in our daily reporting. In order to do that with the increasing number of COVID-19 positive cases, we are implementing new technology to automate the process. Until this conversion is complete, please refer to the data found on the dashboard here: https://coronavirus-response-moco.hub.arcgis.com/.

Montgomery County Public Health District's mission is promoting a healthy, resilient community through health education, disease prevention, clinical services, and emergency preparedness. For more information about the Montgomery County Public Health District please go to www.mcphd-tx.org.
